 fishhook — more at **ANGLE** (fish-
 hook)] **1 a** *archaic*: a corner or
 area near a corner **b** *archaic*: an
 out-of-the-way place (<into the
 utmost ~ of the world — Edmund
 Spenser>: **NOOK** **2 a**: the fig-
 ure formed by two lines diverging
 from the same point or by two
 surfaces diverging from the same
 line **b**: a representation of
 such a figure or space **3**: one
 of the four astrological houses at
 the cardinal points of the com-
 pass **4**: a projecting corner (as
 of a stone or building): a pointed
 form or sharp fragment **5** *math*

angles: *ABD* and *ABC*
 right angles; *FBD*, *F'BD*,
F''BD acute angles; *EBD*,
E'BD, *E''BD* obtuse
 angles; *CBD* straight angle;
GBD reflex angle; *B* vertex

: a measure of the amount of rotation of either of two intersect-
 ing lines necessary to produce coincidence with the other, the
 rotation being in the plane of the lines and about the point of
 intersection; *also*: a measure based on this for indicating the
 divergence of two nonintersecting nonparallel lines, two inter-
 secting planes, or two intersecting curves **6 a** (1): the direc-
 tion from which an object is viewed: **POINT OF VIEW** (a camera
 ~): **ASPECT**, **PHASE** (<to discuss all ~s of a question> (2): the
 point of view or special interest or emphasis controlling a presen-
 tation (as of a story, article, or speech) or the phase of a
 presentation that is of interest to or bears upon a certain group
 or point of view **b** *slang*: **SCHEME**: a slick knowledge of
 method esp. in criminal activities: a method for illegal gain
7: a curving direction given a ball (as by a stroke or kick)
 (<put ~ on a tennis return> **8**: **ANGLE IRON** **syn** see **PHASE**
angle \ " \ *vb* angled; angled; angling \ -g(ə)lɪŋ \ **angles** *vt*
1 a: to turn, bend, move, or direct at an angle (<*I angled a look*
behind me — Think> **b**: to hit at an angle: strike or kick (a
 ball) toward the sidelines (<~ a tennis return> **2**: to adjust at
 an angle (<~ a camera> **3 a**: to present the material of (as a
 news story, article, or speech) from a particular point of view
 or favorable to the interests of a particular group **b**: to warp
 (such a presentation) by emphasis or implication to favor a
 particular person, class, group, or race ~ *vi* **1**: to change di-
 rection by making an angular turn or turns (<the road ~s up the
 hill> **2**: to go at an angle (<~ across the road>

angle bar *n* **1**: **ANGLE IRON** **2**: one of two bars used to splice
 the joint of two railroad rails

angle bead *n*: a corner bead set vertically at the meeting of two
 walls

angle beam *n*: a beam in which one part (as a flange) is at an
 angle with another

an·gle·ber·ry \ 'æŋɡəl,berē \ *n* [prob. fr. (assumed) earlier E
angberry — more at **ANBURY**]: a papilloma or warty growth of
 the skin or mucous membranes of cattle and sometimes horses
 often occurring in great numbers and thought to be caused by
 a filterable virus

angle brace *n* **1**: a brace across two pieces that meet at an
 angle — called also *angle tie* **2**: a boring brace for use in
 cramped places (as in a corner)

angle bracket *n* **1**: a bracket in an angle or corner of a molded
 cornice **2**: **BRACKET** 4b

angle brick *n*: a brick of oblique shape (as for use at a salient
 angle)

angle capital *n*: the capital of a corner column; *esp*: a capital
 modified from the ordinary form so as to face on both sides of

the longitudinal axes
 the longitudinal axis
 that is positive when
angle of position: **AN**
angle of recess: the
 of wheels in gear from
 pair of teeth until the
